TOWNSHIP ACCOUNT BOOK,

FOR

Indiana Township Trustees.

Revised and made to conform to recent Legislation.

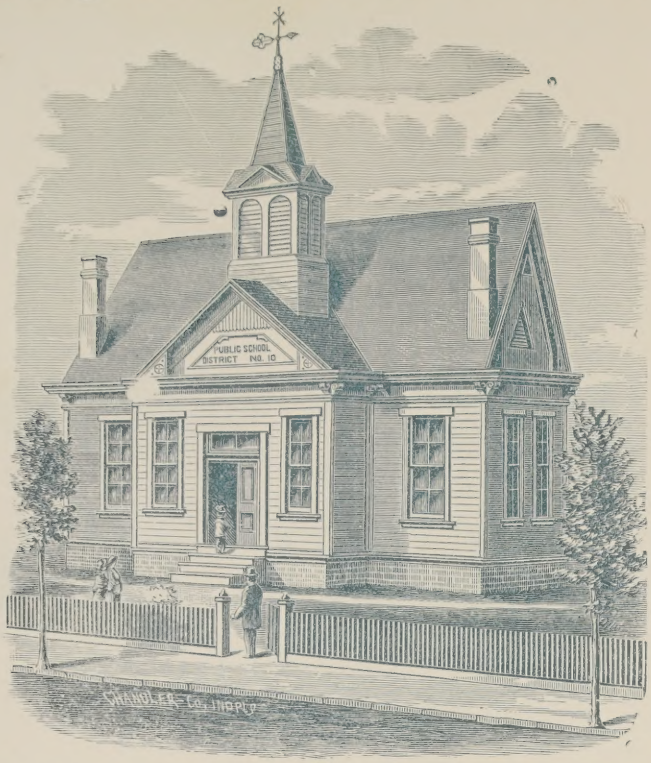
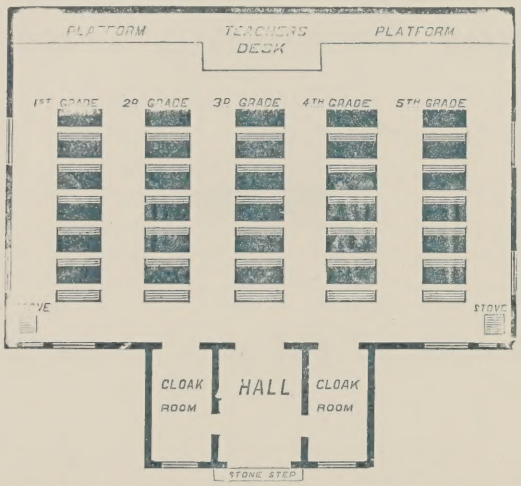
INDIANAPOLIS.

Something of Interest to Trustees.



BAKER'S GRADED DISTRICT SCHOOL BUILDING.



GROUND PLAN OF BAKER'S GRADED DISTRICT SCHOOL BUILDING.

Size of Room 26 x 36, Size of "L," 8 x 16.

These cuts represent the Perspective View and Ground Plan of the coming School Building for District Schools. In this you will observe the following advantages and conveniences:

1st. Each grade is seated by itself. One glance on entering the school shows how closely the teacher is grading his pupils.
2nd. It is economy of room as the entire floor space is used.
3rd. As the pupils face a dead wall and get light from behind and the sides, detrimental angles of light are avoided.
4th. It is the best possible plan for recitations as the pupils of each grade can recite in their seats.
5th, It admits of 36 continuous feet of black-board.
6th. The teacher has the whole school before him in a compact form.
7th. The pupils appreciate what is meant by Grading and can see what the course of study means.
8th. Every pupil has the same advantages of black-board demonstrations and wall-map exercises.
9th. It gives the best possible means of ventilation.
10th. It is the only shape in which the teacher has the main room, cloak-room and hall under his eye at one glance.
11th. It is a neat, convenient and handsome building.
12th. It suits exactly the system of grading, adopted by the State Convention of County Superintendents, which is published by us.
13th. The arrangements for ventilation are the most perfect possible.

Arrangements for Heating and Ventilation.

The Stoves are upright Coal Stoves, and each is enclosed in a sheet-iron drum or jacket with an air space of 6 inches between it and stove, fitting close to the floor. An opening is made in the floor beneath each stove with a wooden air passage, 10 x 12 inches, leading to a ventilator in the foundation. Each corner of the room opposite the stove contains a triangular escape with an opening, or register, at the base.

Arrangements for Seating.

Each Grade is supplied with six double desks and one rear seat, commencing with the First Grade, the smallest, up to the Fifth, the largest.

Specifications and Bill of Material for both Brick and Frame Building

Will be sent to any Trustee for $5.00. We charge this amount to pay the expense of getting up the cuts and specifications, otherwise we make you a present of it.

BAKER & THORNTON, Indianapolis, Ind.
